

Care beyond the gate.

Locally led correctional healthcare for adult and juvenile facilities. On-site diagnostics, visible accountability, and proactive care.

A COMPLETE PROGRAM, OR A FOCUSED SERVICE LINE

Medical & nursing

Receiving screening, primary and urgent care, chronic conditions, medication management, and physician coverage.

Behavioral health & substance use

Psychiatry, therapy, crisis response, withdrawal care, medications for addiction treatment, and counseling.

Competency & juvenile services

EASS, Jail-Based Competency Treatment, child and adolescent behavioral health, and probation coordination.

Diagnostics & operations

On-site point-of-care lab setup, pharmacy and diagnostic coordination, staffing, release planning, and CalAIM workflow support.

WHY JUSTICE HEALTH SYSTEMS

Local authority. Physicians lead care. Local leaders make operational decisions.

On-site labs. Earlier diagnostic answers help avoid unnecessary outside trips.

Transparency. Dashboards and direct communication keep county leaders informed.

Proactive care. Earlier treatment helps prevent costly crises, transports, and escort time.
